EXPERIENCE

New Vision Information Technology

Engaged in an enriching industrial attachment at here, immersing myself in the world of industry-level software development to gain hands-on experience and insights. In group projects,

- Implemented authentication & role-based authorization
- Perform CRUD operation

EDUCATION

Chittagong University of Engineering & Technology

📅 02/2019 - Present
📍 B.Sc in CSE
CGPA: 3.1/4.00 (Up to 7th semester)

PROBLEM SOLVING

Solved 300+ problems on coding platforms, especially in LeetCode and also in Codeforces on various topics.

🏆 Leetcode 🇧🇷 Codeforces

PROJECTS

Employee Management System

I have solved the issue of enhanced user experience by optimizing the **Thymeleaf** templates, resulting in a more intuitive and responsive frontend interface with **Spring boot** as backend for **CRUD** operations.

Academia of university

A **Spring Boot** project to resolve performance issues through efficient database queries and backend optimizations for **CRUD** operation with **MySQL** database.

Sudoku Solver

I have learned backtracking technique and implemented it through this project. HTML and CSS are for designing, and JavaScript is used for implementing the logic.

CERTIFICATION

- SQL (Basic) Certificate

INTEREST

- Advance Java
- Backend Development
